

Marine letter and cutout chest:

Greetings my adventure partners:

My name is Marine, surely you remember me from other campaigns. In this course we are going to learn about Senegal. I am very happy to show you the wonders of my country. Your help will be very important to improve the education of the 5 Piarist boarding schools in the country. That is why I want to share with you one of the greatest treasures of my country. It's called "Teranga" and it's not an object, nor is it a place, it's something that those who visit Senegal will discover right away. "Teranga" means that all the people who arrive to the country have to feel as if they were in their own home.

It means that the important thing is not the things we have, but the way in which we share them. It means that all of us in Senegal think that the world can be a better place if we learn to always help those who are close by, if we learn to be attentive to see what those around us need. That is the treasure I want to share with all the adventurous and adventurous. For me it was a surprise to discover that in many places they do not know the "Teranga" and for that reason I want to invite the world to learn to share how we do it in my country.

And you... Do you have something similar? What is your treasure? I'm sure in your country you also have some treasure that can be an example and that you can offer to the world. Will you share it?

Sincerely,

Marine
