

CULTIVATING

Sukal is a great cook and nature lover, interested in showing us the reality of the Democratic Republic of the Congo, a poor country where a very high percentage of children have no food.

It would be advisable to work on the global concept of the campaign "To the Rhythm of Congo" before doing this activity. It is also advisable to briefly introduce the characters that will guide us through the different activities.

TARGET AUDIENCE

Students aged 3 to 18 with different activities depending on the age group.

STUDENTS AGED 3 TO 10

- Firstly, the teacher will show students how to distinguish animal products from vegetable products using Sukal's sheet¹.
- Secondly, the teacher will show students the main food that grows in the DRC using the vegetables annex².
- Finally, students will plant some tomato seeds and nurture them until they bear fruit.
